

**MONTANA LOCKERS**

Design by Peter J. Lassen

**Montana**

# Personal storage.

Montana Lockers are smart personal storage solutions that maximise the space and functionality of a locker and support all the benefits of a flexible environment. Montana Lockers can be adapted to suit any kind of office, gym, or schools as well as other types of public activity spaces.

H 184.4 cm / W 70.4 cm / D 38.8 or 47.6 cm  
**8 rooms**

---

H 138.8 cm / W 104.6 cm / D 38.8 or 47.6 cm  
**9 rooms**

---

H 184.4 cm / W 104.6 cm / D 38.8 or 47.6 cm  
**12 rooms**

---

## **A system with endless possibilities.**

The Montana lockers hold endless possibilities and can be adapted into any workplace design in various ways through colours and composition.

The Montana Lockers consist of four key modules in two depths, created from the existing Montana system's basic modules and with modularity as the cornerstone of the design.

The lockers can be mounted on the wall or on a plinth, different locking solutions and mechanisms can be embedded. The lockers are available in all of Montana's 42 lacquer colours and can be applied with decal numbers placed either vertically or horizontally.

Colour: Peppermint

---

## **Personal space. Seamless mobility.**

Lockers are essential to the success of any flexible workplace design organized with no-fixed seating. Collaboration and mobility is increasingly important yet employees still need to have a space of their own that physically connects them with the work environment. The effectiveness of lockers in the work environment is increased when the connection to it is seamless. Lockers work best when they are integrated into the overall design and function of the workspace, whilst being located appropriately to work activity.

## Safe-keeping for concertgoers.

Montana delivered 1360 lockers for the concertgoers and sports spectators of the new iconic building, Royal Arena, in Copenhagen. Royal Arena is designed by 3XN architects and houses 16.000 guests. The multi-functional construction is characterized by the high quality in every solution. Visitors of the Royal Arena can rent a locker online for a small fee. The lockers come with an electronic key pad solution from a 3rd party supplier, which connects to an online rental site.
